MC Gloss	Gloss coated woodfree paper. High resolution standard gloss label for multicolour printing. Extensively used in food and beverage industry, logistics, stationery and cosmetics products.	Suitable for printing on offset (conventional and UV), flexo (all types), letterpress (conventional and UV), screen printing, hot stamping, thermal transfer and laser printing.	Solid	Permanent		•	•
MC Gloss			Solid	Removable		•	
MC Gloss			Split	Permanent		•	•
Vellum Offset	Calendered uncoated woodfree paper. Applications Ideal for all types of applications: variable label information (barcodes, expiry date, price, weight etc.)	Suitable for printing on offset (conventional and UV), flexo (all types), letterpress (conventional and UV), screen printing, hot stamping, thermal transfer and laser printing.	Solid	Permanent		•	
Vellum Offset			Split	Permanent		•	
Digital Gloss	Gloss coated woodfree paper. High resolution standard gloss label for multicolour printing. Extensively used in food and beverage industry, logistics, stationery and cosmetics products.	Suitable for printing on offset (conventional and UV), flexo (all types), letterpress (conventional and UV), screen printing, hot stamping, thermal transfer and laser printing.	Solid	Permanent	•		
Digital Gloss			Split	Permanent	•		
Digital Laser	Uncoated woodfree paper guaranteed for laser printing. Suitable for laser, and inkjet printing and photocopying machines.	Suitable for printing on offset (conventional and UV), flexo (all types), letterpress (conventional and UV), screen printing, hot stamping and laser printing.	Solid	Permanent	•		
Digital Laser			Split	Permanent	•		

Permanent adhesive: General use acrylic permanent adhesive including smooth and slightly rough or curved surfaces. Shelf life From the date of manufacture 2 years in 20°C and RH 50%.

Removable adhesive: Removable acrylic adhesive with high cohesion, moderate tack and adhesion. Works on a wide range of surfaces without leaving residue upon removal. Not recommended for adhesion on difficult surfaces such as cardboard, rough or curved areas due to its low adhesion values. It is advisable to carry out tests on unknown or problematic surfaces. Shelf life From the date of manufacture 1 year in 20°C and RH 50%
