

Lessebo Recycled is awarded with EU Ecolabel

Press release > February 8, 2021

Lessebo Paper launched Lessebo Recycled in 2019, an uncoated range of papers produced from sorted consumer waste, sourced from Europe. This innovative product made with recycled content is now awarded with the reputable EU Ecolabel.

Lessebo Recycled is an uncoated paper quality and matches the highest sustainability standards, available in two shades; Balder (CIE 145), and Tor (CIE 75) produced at Lessebo Paper mill in south of Sweden. The range of Lessebo Recycled is available from stock as well as available direct from production. Lessebo Recycled is now credited with the EU Ecolabel.

The EU Ecolabel is a label of environmental excellence and is awarded to products meeting high environmental standards throughout their life cycle: from raw material extraction, to production, distribution, and disposal. The EU Ecolabel promotes the circular economy by encouraging producers to generate less waste and CO₂ during the manufacturing process.

Lessebo Recycled is also FSC® Recycled certified and by offering recycled products, Lessebo Paper contributes to a circular economy and reducing the pressure on forests and the consumption of natural resources. *“Environmental sustainability is a corporate priority at Lessebo Paper and offering recycled papers and boards for the market is an important part of our commitment to the planet.”* Explains Eric Sigurdsson, CEO at Lessebo Paper.

Eric Sigurdsson concludes *“The EU Ecolabel awarded Lessebo Recycled is a way that Lessebo Paper makes it easy for customers to make a difference for the environment”*.
